

# CITY OF LOGANVILLE

## CURBSIDE COLLECTION PROGRAM

### WHAT:

The City of Loganville curbside Collection Program provides you with an easy and efficient method to store your household waste and reduce your waste generation through recycling. Each resident receives a Roll Cart for non-recyclable solid waste and a new (18) gallon Recycling Bin that will allow you to easily recycle. Our contractor, Waste Pro, is contracted to empty the contents of the Roll Cart and any additional bagged waste each week. If you regularly have more than fits in one cart, please call City Hall for a second one. No tires, used oil, furniture, liquid paint or chemicals, yard waste or white goods are to be placed for collection. Both should be placed curbside by 7:00 AM on the designated collection days.

### WASTE PROS' SERVICES DEFINED

*Garbage:* If it is in a plastic garbage bag or in the provided 96 gal roll cart Waste Pro will pick it up.

*Recycling:* Place all recyclable items in the provided bin. If your recycling exceeds the bins capacity: Waste Pro will gladly make arrangements for an second bin for you. Overflow around busy holidays is expected. We simply ask that you break all boxes down and place next to bin.

*Recyclable Items:* Glass, Aluminum, Plastics, Milk Jugs, Paper and Cardboard.

### WHEN:

The City of Loganville curbside Collection Program will be serviced by Waste Pro on three different days. Please contact City Hall for service day information for your home.
